DIRECTIONS: Use ONLY in a well ventilated area, preferably outdoors. SHAKE CAN WELL BEFORE USING. Hold can about 2 cm above pet's back and spray the entire body of the pet, beginning at the tail and working towards the head. Do not spray face, eyes or genitals. Rub the foam thoroughly into the pet's coat using a comb, brush or gloved hand. Repeat as necessary, to thoroughly moisten, but not to soak the entire haircoat. Pay special attention to neck, hindquarters, areas under legs, around the tail and between toes. Do NOT use on dogs or cats under 8 weeks of age. Do NOT use on dogs or cats under 8 weeks of age. Consult a veterinarian before using on sick, aged, pregnant or nursing animals or animals receiving other pesticide treatment. Treatment must be repeated only if the pest problem persists or reoccurs. For effective flea and tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use)

and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal treatment of the premises may be required. A veterinarian should be consulted when flea infestation continues to be a problem.

**PRECAUTIONS:**

**PHYSICAL AND CHEMICAL HAZARDS:** Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do NOT puncture or incinerate container even when empty. Do NOT store at temperatures over 50°C. Keep away from open flame or sparks.

**HUMANS: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with mouth, eyes, skin and clothing. Avoid breathing fumes or vapours. Avoid contact with pet until dry. Avoid skin contact by wearing rubber gloves. After handling or applying, wash gloved hands (or any other skin that came into contact with the product) with soap and water. Avoid contact with food, food utensils or places where food is prepared or stored. Discontinue use if dermal or nasal irritation develops. Do not use near fish, food or foodstuffs. **PETS:** Harmful if swallowed or inhaled. May irritate eyes, nose and throat. Avoid direct spray of dog's or cat's mouth, face, eyes and genitals. Toxic to fish and other aquatic life. Cover fish aquaria in vicinity of treatment area. Toxic to birds.

**FIRST AID:**

**HUMANS:** If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If sprayed in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention. **PETS:** Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

**DISPOSAL:**

When container is empty press valve to release pressure. Dispose of empty container in regular household garbage. Do not puncture or incinerate.
