Salt Block Holder - Universal

This universal block holder doubles as a grain or supplement feeder. Unique design allows for feeding 50lb. salt, mineral, or protein blocks, as well as loose minerals and feed for cattle, horses, goats, sheep, alpacas, and llamas. High sides prevent animals from knocking the block out of the holder and reduce their ability to gnaw on the corners, reducing waste and saving money.

Deshedding Tool - FURminator

Shedding horse hair sticks to your clothes and gets in your eyes and mouth. With the FURminator Equine Tool, there's an easy way to remove a horse's "winter coat" and loose hair faster than any brush, rake or comb. Daily grooming with the tool will help maintain healthier skin and coat and reduce allergens, while stimulating circulation and hair growth. The design of the edge allows the tool to push through the topcoat to easily and gently remove the undercoat and loose hair without cutting or irritating the horse's delicate skin.

Sprayer - Boom

All-in-one hose holder and sprayer nozzle is a must for wash stalls! Rust-resistant black powder-coated metal boom keeps the hose up off the floor so you and your horse don't have to worry about stepping on it and getting tangled. The boom acts like a third hand to hold the hose where you want it. Extends from 4 feet 6 inch to 8 feet and swivels 180 degrees. Gentle spray nozzle is animal friendly (100 pounds per square inch working pressure and 350 burst pressure). Works great for equine wash stalls, dog grooming, cattle, hogs, and even vehicles.

Hoof Packing - Easypack

Easypack™ is one of Finish Line®'s newest products developed as a hoof packing for stinging feet, stone bruising, heat, and other minor hoof problems. Easypack™ promotes healthy hooves in horses. Ingredients include Aluminum Silicate, Lemon Balm Oil and Teatree, Clove, and Myrrh Oils. Easypack™ was formulated in a sticky base that stays in place in the hoof better than a leg poultice, and dries very slowly. Washes off easily with warm water.

Wafers - Flex

We developed a vehicle (a unique wafer) to give your horse five joint support products in one easy-to-use palatable Majesty's Flex Wafer. Powders and liquids work well (we use human grade supplements in similar amounts to powder and liquid products on the market). However, some horses often drop feed top coated with powders or liquids on the ground or simply do not eat top coated feed. Unlike powders and liquids, Majesty's Flex Wafers deliver the optimum amount of joint support product to the horse...and at a lower cost to the horse owner.

Wafers - Omega

Omega fatty acids are considered essential to supporting a healthy immune system. They also have been shown to support improvement of hair, coat and hoof condition. The Omegas, especially Omega 3, are lacking in food sources so must be added as a supplement. Always check with your veterinarian and farrier before using any supplement. Some products use fish oil as the Omega source. These products have a short shelf life and can turn rancid. Omegas from Flax flour (not seed) have a much longer shelf life (one year) and deliver the same quality of Omegas in a laboratory certified form.
